Rolleasy

- Can be configured to support 2.72 or 3.55m wide rolls.
- Support the weight of 3.55 x 30m paper rolls and 3.50 x 12m vinyl rolls.
- Uses a detachable crank to smoothly raise and lower each background which then automatically locks in to position.
- The system is available as complete kits or as separate components to create a customised system.
- The Rolleasy system allows you to use multiple paper and/or vinyl backgrounds at the same time.

See website for more details.

Colorama coloured papers are made from 90% recycled paper products. All other raw material is sourced from managed renewable sources.

Green Screen _33 †

PaperBrake

Slide into existing 5.4cm diameter cardboard core to allow paper to be pulled down in controlled gradual steps instead of rotating freely on the crossbar.
LL COBRAKE

Colorgrip
Flexible polyurethane unit that holds up to 12 rolls of Colorama paper upright against a wall.
LL COPAPERGRIP

† Chromablue and Chromagreen (1.35 and 2.72m width) and Green Screen (3.55m width) are special shades in the Colorama range, manufactured to achieve a colour as close as possible to Chromakey colours, within the limitations of paper manufacture.

†† Granite is suitable for use when 18% grey is required.

Although every effort is made to ensure consistency of product, the paper production process may cause slight variations in colour. The texture and lighting of the surface can influence the final appearance of the colour.
